LAKE OSWEGO RESIDENT PUTS ACADEMICS TO WORK IN MONTANA

MISSOULA –

Lake Oswego resident Calvin J. Bailey, a junior majoring in forestry resource management at The University of Montana, put academics to work in a summer-semester internship offered through UM's Center for Work-Based Learning.

Bailey's internship took him to Ellensburg, Wash., where he worked for the Washington State Department of Natural Resources. His work there covered a broad range of duties from timber sales to engineering. Bailey is a 1999 graduate of Lake Oswego High School. His parents are Brad and Sue Bailey of Lake Oswego.

UM's Center for Work-Based Learning's internship program provides opportunities for undergraduate and graduate students to integrate academic theories and principles with practical job experience related to their chosen fields. The program serves about 1,800 students each year, placing 400 to 500 of them as interns throughout Montana, the United States and overseas in more than 35 fields of employment. For more information, visit the center's Web site at www.umt.edu/internships/.
